Rifle Target Frame Plans

Materials list: 2 X 2 lumber 2 pieces 60 inches to 80 inches
 1 X 3 lumber 2 pieces 14 inches
Cardboard backing: Size to fit
Nails, screws or nuts & bolts to hold frame together

Frame can be nailed or screwed together. Or it can be assembled with nuts & bolts, for easy disassembly and

The center of the bottom target should be at least 60" from the ground. This helps the bullet go straight into the backstop

Material for legs can be either 2X2 lumber, or 1X2. If 2X2's are used, the corners need to be rounded to fit inside a 2-inch diameter pipe.

Target holder
2 inch diameter
pipe.

Pipe spacing
12 ½ inches
